STRIKING EXTERIOR DESIGN

IONIQ Hybrid seeks to establish a new alternative for customers on the market for hybrid electric vehicles by providing competitive fuel efficiency in an attractive design with an engaging driving experience. With its strikingly original and visually progressive design, IONIQ Hybrid embodies the future of advanced mobility.

CLEAN AND SIMPLE INTERIOR

The interior is stretched out with the slim dashboard to provide a spacious feeling while design details convey a high-tech image to the IONIQ Hybrid.

Various areas in the interior have been made with eco-friendly materials thus strengthening the IONIQ's position as a green vehicle. Optimized packaging helps maximize interior/luggage space, resulting in a wider, lower profile and a sporty image.

IONIQ Hybrid achieves its competitive fuel economy via an optimized logic that responds to different driving conditions. The differentiated vehicle characteristics of the default Eco and Sport mode provide a unique value to the vehicle.
